1999 Analytical Review DWCCA-1690-ELE

Dear Mr. Pfeilsticker:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review, we noted \$3,093 reported added to Account 343, Transmission and Distribution Mains, Water Utility Plant in Service schedule. However, no corresponding units were reported added to the Water Mains schedule. Please furnish an explanation. In addition, if mains were added, please explain the financing in accordance with the headnote to the Water Mains schedule.
2. During our review, we noted \$66,817 reported in Account 435, Income Statement Account Detail schedule, described as "corrections to previously filed report due to audit adjustments." Please provide more detail explaining these audit adjustments.
3. During our review, we noted 158 kWh reported for fuel for pumping on Page W-10. However, if we divide 6 cents (average cost of a kWh) into the \$15,068 reported in Account 620 (fuel expense), Water Operation & Maintenance Expense schedule, the result is an average kWh usage of 251,133. Please provide the correct kWh used for pumping or otherwise explain this amount.
4. During our review, we noted 12 net new services added on the Water Services schedule. However, the financing for these services was not explained as requested by the headnote on the schedule. Please furnish an explanation.
5. During our review, we noted that Total Plant Expenses on the Water Operation & Maintenance Expenses schedule increased over 25% and \$2,000 from the prior year. Please furnish an explanation.
6. During our review, we noted 880 services reported in use on the Water Services schedule. However, only 735 customers are reported on page W-02. Please explain why there are significantly more services reported in use

than customers.

7. During our review, we noted the Export Report (99\_01690.txt) for your 1999 annual report indicates 1 export error. A number of utilities were notified of a fix necessary to correct this problem with the annual report program. If you are interested in correcting this problem, please e-mail the address below, and we will return the fix to your attention. Reports filed for 2000 with export errors will be returned.

8. During our review, we noted that an explanation is not provided for the adjustments reported on the Water Utility Plant in Service schedule. Please furnish an explanation and follow this procedure in the future.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. If it is convenient for you to respond by e-mail, please do so. My e-mail address is engele@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Reply received 7/21/00:

1. Main valve, no additional footage.
  2. To correct prior year error, auditor has been asked to provide detail. 8/2/00 per Clifton Gunderson adjustments were for overrecording of fixed asset additions, accounts receivable and correction of interfund due to/due from.
  3. KWh was 158,080.
  4. Reply indicated services were financed by contributions (but not who contributed).
  5. Safe drinking water requirements and \$7,694 for pump repairs.
  6. 116 services not in use.
  7. Will request fix.
  8. Adjustments will coincide with item 2, when auditor provides detail. 8/2/00 per CG: reflect adjustment for too high plant additions in 1998.
